RE: 104E Request Stickney Avenue Landfill and Tyler Street Landfills in Toledo, Ohio

Dear Ms. Adams:

The 104 letter on the above referenced site has been sent to us due to our one time ownership of Doehler Jarvis. You originally sent an information request to Doehler Jarvis. When we first received information from Doehler Jarvis that the EPA had inquired about this site, we sent the material to NL Industries. NL Industries has responded to the EPA. The dates referenced in the request, 1951 through 1981, are dates that precede our ownership of Doehler Jarvis and precede the current ownership of Doehler Jarvis. NL Industries is the appropriate party to respond to those dates, as they have done.

We are not sure if the EPA has received enough information from NL Industries to clarify the ownership situation and that is the reason for this letter. Farley Inc. has no information regarding these sites. Any information that exists regarding Doehler Jarvis' activities from 1981 and prior dates would be in the possession of Doehler Jarvis in Toledo, or possibly NL Industries. I believe they have both responded to your information request.

We would like to have Farley Inc. deleted as a PRP. Additionally, the claim precedes the date of Farley Inc.'s bankruptcy. Farley Inc. went through a Chapter 11 bankruptcy and a Plan of Reorganization was approved in December 1992. During 1993 all initial activities occurred pursuant to that Plan of Reorganization. Any claim which predates the bankruptcy is barred by the bankruptcy laws. Notice was sent to EPA of the bankruptcy in 1992. In fact the EPA responded with a claim for Berks Associates site in Pennsylvania which did include activities during our period of ownership of Doehler Jarvis.

If there is any information that you need regarding the bankruptcy please contact me. If the ownership periods are not clear to you, please contact me. Otherwise I will assume that the EPA will delete Farley Inc. as a PRP in this site, if in fact you are still classifying Farley Inc. as a PRP. We did not receive a copy of your December letter. We have heard about the

EPA Region 5 Records Ctr.

December letter and the numerical count of 21 PRP's through Shiff, Hardin & Waite, but we have no details on it.

You may contact me at (312) 993-1705.

Very truly yours,

A handwritten signature in cursive script, appearing to read "David K. Henriksen".
